

To Andy

On behalf of the DRJFL Executive and 140 Coaches and Team Managers that attended our first ever Coaches and Team Managers meeting, we would like to personally thank you for your participation in “Educating the Educators”.

While it was a long night the feedback has been very, very positive. It has now put everyone in a clearer picture of what is expected of them on game day and the challenge of the season ahead at pre season level, training and along with player workloads. Well done and a personal thank you.

Sometimes it cannot be measured the small sacrifices we make along the way for the long term gain of others.

All the best.

Regards,

John Myers

DRJFL President
